Compliance status

Moodle Learning resources are partially compliant with the Web Content Accessibility Guidelines version 2.1 AA standard, due to 'the exemptions' below.

Non-accessible content

Certain historic learning resources have yet to be updated to be fully accessible. We are continually reviewing content with aid from our VLE accessibility checking tool to update these resources.

Disproportionate burden

Though it is deemed a disproportionate burden to review all learning materials on the site for accessiblity, we are gradually replacing and updating these materials overtime.

Content that's not within the scope of the accessibility regulations

All Moodle learning resources are within scope oof this statement, however linked third party training and resources within the platform are not covered my this statement.

What we're doing to improve accessibility

With aid from third party accessibility tools, we are continually reviewing and reporting on the accessibility of content within the platform.

Yeovil College staff are also provided online training resources on building accessible and engaging learning resources to all.
